Re: Customer Count

Dear Ms. Peterson:

The Jasper County Water and Sewer Authority (JCWSA) is now prepared to advertise for bids for the Water System Additions that is to be funded by your agency.

One of the requirements of the Letter of Conditions is that JCWSA provide to you an estimate of customers that will be connected to the system when construction is completed. There will be approximately 440 residential customers and 1 wholesale customer (the Georgia Department of Natural Resources, Wildlife Resources Division) upon project startup.

Please contact us if you have any questions.

Very truly yours,

Merrill Clark, Chairman
